
CLUB '70 **NEWS**

**Happy
New Year
1975**

It's a spanking new year, filled with new opportunities for all!
Here's hoping it brings prosperity, health and happiness to you,
our good friends

HERE
IT
IS.

A Message From Your President.

The tree was up and the stockings hung and the eggnog was flowing free. Club 70 staff presented two skits on Friday the 20th of December. The Christmas Party and Dance was held on Saturday the 21st, with the band "THE WHEATSTONE BRIDGE" providing the music for the festivities. Good music, good friends, good times, our party was a success.

NEW YEARS EVE.

RING OUT THE OLD, RING IN THE NEW. We have all survived the holiday season, with many a aspirin taken. Our New Years bash was well attended with approximately 140 Members out to the Hot Buffet consisting of roast beef, ham and all the trimmings. Our thanks to Hanna for a dinner well prepared and obviously enjoyed as one could tell by the lack of left-overs. Your support was welcomed and we wish you happiness and prosperity in the New Year.

ANNUAL GENERAL MEETING - January 19th, 1975

On Sunday, January the 20th, the membership was well represented at our annual general meeting. A quorum of 78 was needed and more than the necessary number showed up - early at that. The meeting was called to Order at 2:30 p.m.. Coffee, cake, doughnuts were served through-out the meeting. Thanks to Bev. and Lou-Ann for the kind donation of the cake. Our thanks to all the members who attended and a list of the new executive and directors appears elsewhere in this issue.

DOW

Your 1975 executive & Directors

PRESIDENT	Bill Jackson
1 st. VICE PRESIDENT	Bev Mitchell
2 nd. VICE PRESIDENT	Al Fraser
SECRETARY	Joe Hulus
TREASURER	Frank Davis
PROGRAM DIRECTOR	Ron Byers
DIRECTOR	Alec Skakum
DIRECTOR	Gerry Michaels
DIRECTOR	Bob Dean
DIRECTOR	Jean Schatoske
DIRECTOR	Bill Foley
DIRECTOR	Roy Johnson

This is your new board of directors and Executive, as you the voting members of CLUB '70 elected them. With your support they will endeavor to run your Club to the best interest of all concerned. They need YOUR SUPPORT.

The Editors at this time wish to apologise for the January Newsletter being so late. Also if any member wishes to have an interesting article printed, please hand it in to the front door attendant or leave it at the bar with the manager

Thankyou, M&A

EDMONTON - CLUB 70

We've done it again! Club 70 now offers our patrons an Associate Membership, effective February 1st, 1975. This new innovation will allow persons a membership to Club 70 on an associate basis at \$5.00 for a three month period from the date of purchase. This membership DOES NOT give the person voting privileges at the Annual General Meeting, but can be transferred to a full membership up until September 1st with the additional balance being paid. We hope visitors to our Club will take advantage of this new idea.

Need a Patio Table? Recreation Room furniture or maybe a dining Room table for 2? Now that we have reduced the floor space at the Club, we are offering for sale a number of grey top tables. They will be up for sale effective February 1st at a charge of \$10.00 to \$15.00 depending on the condition of the table. Please contact one of the board members if you are interested. As more items will have to be disposed of due to decreased floor space they will be listed in the newsletter as they become surplus.

FREE NEWSLETTER FOR GAY WOMEN

A women's collective, "AMBITIOUS AMAZONS", is publishing a free national newsletter for gay women. The publication "LESBIAN CONNECTION" now has some 1200 subscribers.

News, information, subscriptions, opinions and donations are being solicited by the collective. The address of the LESBIAN CONNECTION in AMBITIOUS AMAZONS, P.O. Box 811, E. Lansing, MI. 48823, U.S.A.

OTTAWA: The Club Bath chain announces the opening of the "CLUB OTTAWA" at 1069 Wellington Street, Ottawa - phone 722-8978

PUBLICATION:

THE ADVOCATE - one year subscription \$10.00
two year subscription \$18.00
Box 74695, Los Angeles, California 90004, U.S.A.

This publication is mailed in a plain brown envelope and comes to you via first class mail.

WE HAVE ARRIVED° WE ARE NORMAL

The club is presently involved in a collaborative research project under the supervision of Dr. X (Yeudall) who is interested in exploring the normal dimensions of HOMOSEXUALITY in men and women. The project is of a highly confidential nature and any inquiries should be made to members of the Board who will help dispel your fears and anxieties regarding this project. This interesting research project will help to prove to one and all (straight and gay) that we are happy, healthy, NORMAL people. All we need is your help. Just remember this is a CONFIDENTIAL research project, so please give us your help.

NEW SKIING IN OLD MONTANA

Montana snow has been piling up 300 to 500 inches of it a year on Montana mountains --- miles and miles of them. When world class skiers talk about Squaw Valley, Aspen and Innsbruck, they're just as apt to add Montana names such as Big Sky, Big Mountain and Red Lodge.

There are 26 ski areas in Montana, and six of them are full time ski operations. The remaining 20 offer fine skiing on a varying basis of facilities and schedules.

The oldest of the Montana ski meccas is BIG MOUNTAIN in northwestern Montana, close to the Canadian border. Famous for the quality of its powder skiing, and Big Mountain's powder is the cream of the crop. Facilities are comprehensive accommodations and are first rate. The dining rooms are excellent and the beer garden is a classic for relaxed fun. Rates are reasonable, and the skiing --- for everyone from a novice to expert --- doesn't have to take a backseat to any place.

The newest smorgasbord of skiing is BIG SKY perched in the middle of two national forests and offering superb everything from slopes to accommodations to scenery to the fact that the resort's development keeps up with its popularity.

BOZEMAN'S BRIDGER BOWL has excellent facilities to put it into the tops in popularity class in Montana. MONTANA SNOW BOWL, laid out on the top of a mountain near Missoula, offers runs for beginners and intermediates, expert runs that are among the most challenging in the country. This area also offers good cross country system.

One of the more promising of the Montana ski headliners is DISCOVERY BASIN, part of the multi-million-dollar Fairmont Hot Springs resort complex near Anaconda.

RED LODGE, where there is enough snow even in the summer to make possible the Hart Summer International Racing Camp, offers superlative skiing in the spectacular Beartooth Mountains. MARSHALL MOUNTAIN offers all kinds of Alpine skiing, night skiing and everything else except overnight accommodations --- which are only four miles away in Missoula anyway. MAVERICK MOUNTAIN has the same set-up as Marshall, only on Highway 278 at Polaris, near Dillon.

An extra bonus for cross country skiers, GLACIER NATIONAL PARK means ski towing with the spice of the primitive, while YELLOWSTONE PARK offers snow coach transportation from its Montana border entrance to OLD FAITHFUL INN for overnight accommodations and a ski tour adventure.

All season interstate highways open the way to once unknown Montana slopes. AMTRAK adds the charm of European style special ski trains, and airlines and Greyhound serve areas near all Montana's major ski meccas.

FINE SKIING IS NOTHING NEW ----IN MONTANA

LOVE AND LAVENDER

FEBRUARY 15 SAT.

10:30 PM

LAVENDER AND CUPID WILL JOIN TOGETHER TO PRESENT, FOR YOUR PLEASURE
A VALENTINES SHOW, IN CONJUNCTION WITH OUR 5th. ANNIVERSARY CELEBRATIONS

Some of the members of this club are interested in HERALDRY and GENEALOGY. ARE YOU ?

Genealogy is the record of a family tree or pedigree of a person or family.

Heraldry is the science or art with coats of arms or a persons right to use an established coat of arms If you are interested please contact Lorne Harris.

CLUB '70s

5TH. ANNIVERSARY

PARTY

saturday, feb 15th. 9 til 3

showtime 10:30pm

gourmet gobbling *with hannah*

pork and potatoe onion bake

5 large potatoes, peeled and sliced (raw)

3 medium onions sliced,

] oxo cube,

] 1/2 cup boiling water,

] teaspoon of salt

] 1/2 teaspoon of pepper,

6 pork chops,

3 tablespoons cooking oil

Trim fat from the chops and brown. When ewell browned place in a 8 cup baking dish. Alternate in layers of potatoe and onions. Season and add dissolved oxo cube. Pour over and bake for one hour covered at 350 degrees. This tasty, tempting and inexpensive dish will serve six. For a delightful extra, serve with a dash of sour cream.

If you are looking for a special recipe, leave a note in the newsletter box and I'll try and get it into the next issue of the news

HAPPY COOKING,

HOOKEE HANNAH

1. The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is of great importance and that it has not been completely solved. The author then proceeds to a detailed analysis of the problem, showing that it is a special case of a more general problem. The author then discusses the various methods that have been used to solve the problem, and shows that the method proposed in this paper is the most efficient.

2. The second part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is a special case of a more general problem. The author then discusses the various methods that have been used to solve the problem, and shows that the method proposed in this paper is the most efficient.

3. The third part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is a special case of a more general problem. The author then discusses the various methods that have been used to solve the problem, and shows that the method proposed in this paper is the most efficient.

4. The fourth part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is a special case of a more general problem. The author then discusses the various methods that have been used to solve the problem, and shows that the method proposed in this paper is the most efficient.

5. The fifth part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is a special case of a more general problem. The author then discusses the various methods that have been used to solve the problem, and shows that the method proposed in this paper is the most efficient.

6. The sixth part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is a special case of a more general problem. The author then discusses the various methods that have been used to solve the problem, and shows that the method proposed in this paper is the most efficient.

7. The seventh part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is a special case of a more general problem. The author then discusses the various methods that have been used to solve the problem, and shows that the method proposed in this paper is the most efficient.

8. The eighth part of the paper is devoted to a detailed analysis of the problem. It is shown that the problem is a special case of a more general problem. The author then discusses the various methods that have been used to solve the problem, and shows that the method proposed in this paper is the most efficient.
